## Focus Areas of the Foundation

**Education &  
Skill Development**

**Healthcare**

**Environmental  
Sustainability**

# OVERVIEW

## Dear Readers,

At GMM Pfaudler Foundation, we envision empowered communities, accessible healthcare, and a thriving environment. In this edition, we spotlight key initiatives driving that vision:

**Education:** Collaborations with JV Patel ITI, Catalyst for Social Action, and government schools are transforming classrooms and skill centers into gateways for lifelong learning and employability.

**Healthcare:** SPARSH 2.0 and our partnership with ESIC Hospital are delivering essential healthcare to even the most remote communities.

**Environment:** Projects like Marine Megafauna Rescue and Re(ef) Generate highlight our commitment to marine conservation and coral ecosystem restoration.

**Together, these efforts reflect our mission to create a sustainable, inclusive future.**

## HIGHLIGHTS

### Education & Skill Development

#### Upgradation of facilities at JV Patel Industrial Training Institute at Karamsad, Gujarat

GMM Pfaudler Foundation has collaborated with JV Patel ITI to provide skill development training and modernize the Institute's facilities to improve the quality of education and employment prospects for students.

The Foundation has constructed a canteen and installed a water filter & cooler at the institute. This initiative ensures students' convenient access to safe and hygienic dining facilities as well as clean drinking water, with the goal of reducing health risks.

Additionally, the Foundation has constructed a female washroom to provide hygiene facilities for female students and staff at the institute.

Furthermore, the Foundation has renovated the existing building and nearly completed the construction of the new wing in a phased manner. The construction of new wing will enable the introduction of additional vocational programs thereby catering a larger population of local youth enhancing their career prospects and long-term opportunities.

**In FY25, JV Patel ITI successfully organized 20+ placement drives, resulting in the placement of 125+ students.**

# HIGHLIGHTS

## Education & Skill Development

### Project Adopt a Home at Sangli, Maharashtra

As part of its commitment to child welfare, the Foundation has partnered with Catalyst for Social Action under the "Project Adopt a Home" initiative to support 65+ underprivileged children across two Childcare Institutions (CCIs) in Sangli, Maharashtra. The program is structured around three core focus areas: Health and Necessities, Learning and Development, and Emotional Wellbeing. In the area of Health and Necessities, a washroom cleaner has been appointed to maintain hygiene and ensure clean sanitation facilities.

To enhance Learning and Development, the initiative supports academic growth by appointing tuition teachers and providing school bags and stationery. Additionally, digital learning has been strengthened by appointing NIIT-certified computer teachers who offer training in both software and hardware skills.

Education Day celebrations were organized to encourage engagement. Children were also provided with complete festive attire, promoting dignity and inclusion.

Tuition support for better learning

In FY25, the Foundation positively impacted over 2,000 students through its educational initiatives.

## Healthcare

### Shree Krishna Hospital Programme for Advancement of Rural and Social Health (SPARSH 2.0)

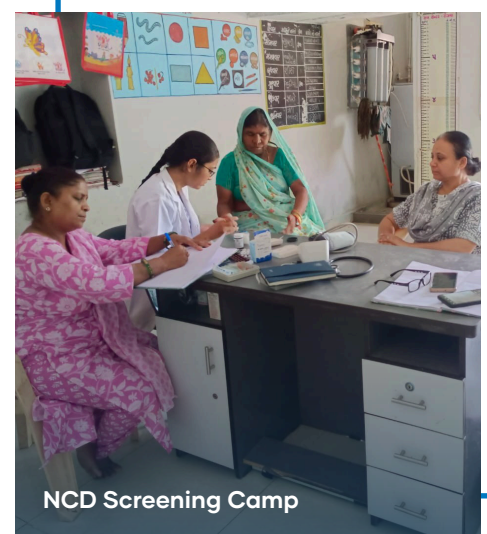

GMM Pfaudler Foundation in collaboration with Charutar Arogya Mandal, is implementing Project SPARSH 2.0 across 100 villages around Anand in Gujarat that focuses on addressing risk indicators of Non communicable diseases (NCDs) such as Pre Obesity, Central Obesity, Pre Hypertension, Pre Diabetes that enhance early intervention and support to NCD patients.

**300+**

Camps conducted  
in FY25

**8,000+**

Patients consulted  
in FY25

## Healthcare

### Renovation of a gynaecology operation theatre at Shree Krishna Hospital, Karamsad, Gujarat

GMM Pfaudler Foundation has supported the renovation of a Gynaecology Operation Theatre (OT) at Shree Krishna Hospital, Karamsad, as part of its continued commitment to strengthening healthcare infrastructure in the region. The 40-year-old OT facility was extensively upgraded to align with the standards set by the National Accreditation Board for Hospitals & Healthcare Providers (NABH), setting a new benchmark for quality and excellence in surgical care.

### Upgrading facilities in the mother and childcare division at ESIC Hospital at Nacharam, Hyderabad

The GMM Pfaudler Foundation had undertaken a phased upgrade of the maternity ward at ESIC Hospital Nacharam, Hyderabad, since FY23. In FY25, the Foundation has donated about 16 equipment including an Ultrasound Scanner, Infant Radiant Warmers, Transcutaneous Jaundice Detector, Acoustic Emission device amongst others to the ESIC hospital. These equipment support healthcare professionals in delivering comprehensive & high-quality care to mothers and newborns.

# Employee Engagement Activities

Focusing on holistic wellbeing, sensitization sessions on mental health awareness and the importance of a balanced diet were organized for employees. These sessions provided valuable insights into managing stress, maintaining emotional resilience, and making informed nutritional choices to support overall health and productivity.

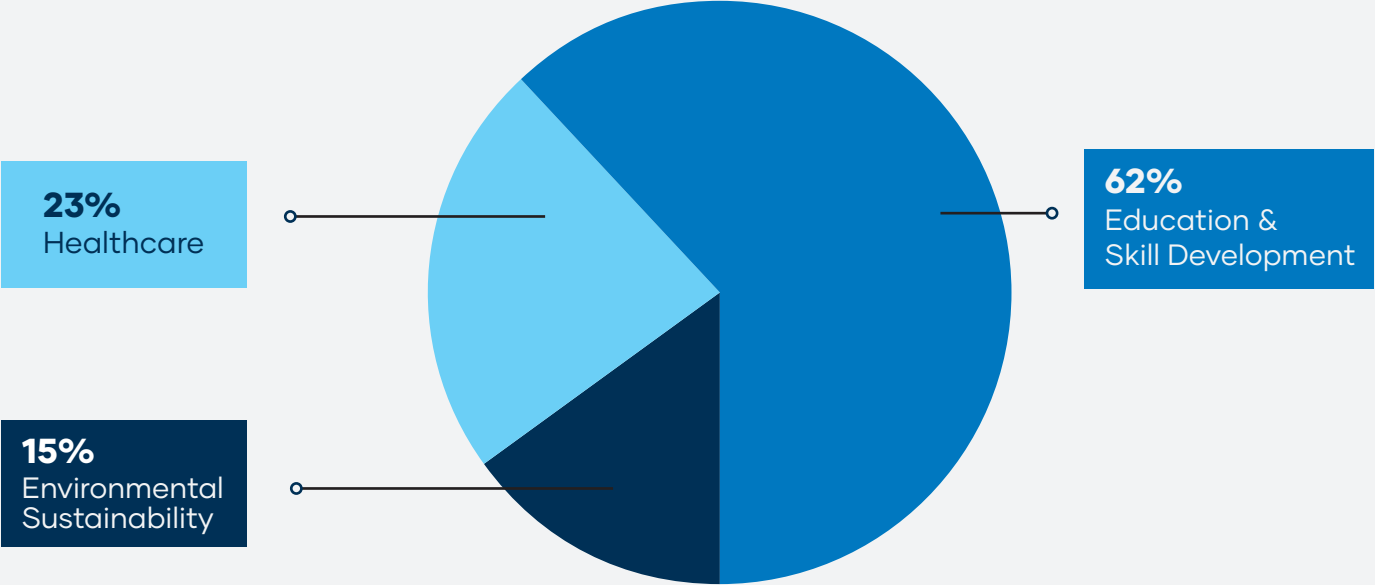

In addition, a blood donation camp was held at the JV Patel ITI, with active participation from employees—reflecting a strong sense of community engagement and social responsibility. These initiatives underscore GMM Pfaudler’s dedication to fostering a healthy workplace culture while encouraging employees to play an active role in giving back to society.
